POST-OFFICE HOURS.

The Postoffice is open for general delivery on 8 a. m. to 6 p. m.
Money order Department open from 8 a. m. to 6 p. m.

MAIL ARRIVALS.

From East and West at 12 m., departs 3 m.
Bisbee mail departs 6 a. m.; arrives 6 p. m.

A. & S. E. R. R.—TIME CARD.

LEAVE.	ARRIVE.
Bisbee, 7:00 a. m.	Fairbank, 9:30 a. m.
Fairbank, 12:00 noon.	Bisbee, 2:30 p. m.
Daily, except Sundays.	
BEN WILLIAMS, Supt.	

LOCAL HAPPENINGS

The thermometer at Seaman's store registered 86 yesterday.

Buy a Louisiana lottery ticket at Jos. Lippert's barber shop.

One portion of the Rescue hose house has been moved to its location.

The average age of the twelve English bishops is seventy-six years.

A few yards of floor oil cloth, 50 cents per yard, at Sydow & Kieck's.

The outlook for winter feed for stock in Southern Arizona is very good and stock men are smiling.

The coal fields of Hokkaido, in Japan, are estimated by an American engineer to be worth \$100,000,000.

Full-sized mattresses, \$5, at Sydow & Kieck's.

A nice little shower of rain fell yesterday afternoon, making the atmosphere very pleasant.

Oil, needles, attachments and parts for repairing all the leading sewing machines at Yapple's Candy Factory.

Those lawn tennis trousers were lost for four or five minutes last evening, and a fraction of society was all torn up.

Remember the agency for Clark's "O. N. T." spool cotton is at Sydow & Kieck's.

A pure white tarantula was caught in Las Vegas, N. M., last week. Its venom is said to be equal to that of a rattlesnake.

A nice line of white and colored bedspreads just received at Sydow & Kieck's.

Upward of twenty-eight large bales of human hair were brought to France in the last steamer that arrived from the Orient.

Out of 246 men passing along Main street in Cincinnati on a recent afternoon 210 had lost one or more of the hind buttons off their coats.

The D. M. Osborne mowers and the Halladay windmills for sale at Wolcott's.

Stevenson & Walker are the authorized agents for Louisiana lottery tickets in this city. By investing \$1 you have a chance of winning a fortune.

An Altoona angler caught a bass weighing five and one-half pounds in the Juniata the other day. It was twenty-three inches in length.

If you want ice cold St. Louis draught beer out of a genuine German pump call on Julius Caesar at the Crystal Palace.

If Governor Wolfley's friends would do him a valuable service they will advise him to stop writing explanatory letters to the press, for he will get the worst of the game every time.—Star.

Didn't Know it was Loaded.

An empty whisky barrel may be more dangerous than a full one. Yesterday freighter Barnes loaded some holes in the barrel he was rigging up for desert use. To smooth off the inner edges he ran a tin iron through one of the holes near the bottom. Instantly an explosion like a rifle shot was heard and people fled to the more Brothers' blacksmith shop, expecting to see a man whirling in warm gore. They found instead a barrel open on top, heavy dents in the roof timbers and splinters of a barrel head scattered about. The tin iron had touched off, evidently, old whisky gas and caused a blow up from which bystanders escaped by the merest chance.—Phoenix Herald.

Was it Donnelly?

Several weeks ago Frank Donnelly, formerly of Bisbee, left the Congress mine in Yavapai county, to go to the Yuma copper mines. He never reached the latter place and has not been heard from since. The decomposed body of some person was found a few miles from the Yuma copper mines, and the head and hair being like Donnelly's it is presumed by that he died en route. Donnelly was well known in Cochise county where he was formerly a partner of R. J. Winder in the mining business.—Phoenix Gazette.

Col. Herring returned from Tucson yesterday. He will go back to that enterprising burg next Tuesday on legal business.

Mark Smith and A. R. English went out to the Babacomari yesterday. They were loaded for "char," but will probably come back filled up with cornmeal soup.

District Clerk Daily yesterday issued a writ of habeas corpus in the case of Attorney Wilson of Benson, who was recently held to appear before the grand jury and who was out on bail.

A man engaged in digging a well at Prescott Junction had put a blast in on Saturday, which failed to explode. While engaged in picking it out the charge exploded, injuring him very seriously and probably fatally.—Journal Miner.

Superintendent Fisher yesterday exhibited a specimen of silver which is extremely beautiful as well as valuable. It was obtained from Ground Hog ore and was made by the leaching of the crucible in which it was being reformed. The molten metal ran over and through the grates of the furnace and formed into the most fantastic designs. The specimen weighs one hundred and one-quarter ounces and is about 970 fine. It will probably be sent east to the headquarters of the company. Owing to the delay caused by this accident the casting of the two bars will be made this morning.

Judge William Barnes, the wealthy New York gentleman mentioned some days ago in the Herald, arrived last evening and was joined this morning by Messrs. E. H. Hobbs, of New York, and Charles E. Wickinson, of Philadelphia. These gentlemen, we understand, are heavily interested in the Buckeye canal and are perfecting plans for greatly enlarging that enterprise. Judge Barnes is a very influential Republican in the Empire State, some journals comparing his influence with ex-Senator Platt. At all events the judge is thoroughly impressed with the possibilities of the Buckeye canal and country.—Phoenix Herald.

Pictures, picture frames, mouldings and artists' materials at Monmonier's.

MINING NOTES.

A very favorable feature in mining in this district is the leasing of mines by miners who are, in nearly every instance, making more than wages, and in some cases making big money. Of course this is a benefit to the camp, for when the owners of mines let their properties remain idle it is a drawback to the district. The lessees of a mine are liable at any time to encounter a body of ore, which is not only a benefit to themselves and the camp, but enhances the value of the property and others adjoining. Several good strikes have recently been made in this district by lessees, the extent and value of which have not yet been discovered. While we would like to see all our mines in successful operation by the companies or individuals owning them, yet if such cannot be the case the leasing of them to parties working for daily sustenance will be of great benefit to the entire district.

The Emerald is producing somewhat better than for a few weeks, the force of men remaining the same. No change of importance has occurred during the week.

The Rattling Boy is down nearly 200 feet and drifts are being run both ways on the ledge with very favorable indications of soon being in good ore.

The Big Comet still shows an immense body of low grade ore. Work is being continued and the grade of ore will undoubtedly increase as sinking progresses.

The Omega mine is being worked as usual but no change for the better has taken place during the past week. The ore in this mine occurs in deposits and in the past several large bodies of high grade ore have been extracted. There is no knowing at what time a similar one may be encountered.

The affairs of the Nicholas have been satisfactorily adjusted, all claims have been paid and work will be resumed in a few weeks. This is one of the best prospects in this district and its resumption of work will encourage other mine owners.

No change to report at the Lucky Cuss. The usual shipments of ore are being made.

The work of cleaning out in the northwest shaft of the Toughnut continues, the screenings paying expenses.

The stopes and levels of the Vizina are being cleaned out, but so far the diamond drill has not been put to work owing to Superintendent Fisher's lack of time to start it.

The Ground Hog continues to show a strong ledge of rich ore. Shipments are being made to the mill regularly and everything around and in the mine is in first-class shape.

The Sterling Silver mill has run the past week on Ground Hog ore. Next week half and half of Ground Hog and Vizina ores will be worked, as this combination will give better results than Ground Hog ore alone. Two bars of fine bullion were to have been melted yesterday, but owing to an accident while retorting the melting will be done to-day. Work is steadily continued in the well and good progress made. Shipments of bullion are regular and are proof positive of the success of this enterprise.

The lessees of the Sunset are reaping a deserved recompense for several months of hard labor. They have a two-foot vein of good ore, the extent of which is unknown. A shipment was made to New Mexico last Thursday.

A rich strike is reported to have recently been made by the lessees of the Blue Monday. The ore is said to assay high in silver and several ounces in gold. It adjoins the Bob Ingersoll and nearly touches the Herschel.

The Esperanza shows up fourteen inches of \$30 ore and promises to become a good property. Development work will be continued.

The Juniata has recently been leased to MacNeal and Morrison. This mine has in former times produced the richest ore in this district. It has lain idle for years although supposed to be a good property. The lessees are considered fortunate in securing a lease of this property.

A winze is being sunk in the Herschel to tap the ore at another point. The usual amount of good ore is being extracted and another shipment will soon be ready.

The lessees of the Stonewall Jackson continue to send their usual amount of manganese ore to El Paso.

The Old Guard is in another muddle which will probably not be straightened out until the next term of court. In the meantime no work is being done on the property.

The Nicholas will soon resume work as the new owners are desirous of either blowing the bottom out or exposing a good mine. We believe the latter will be the case as the showing is excellent and the ore above average.

The lessees of the Townsite are reported to have a nice little streak of good ore and to be making more than wages.

No recent reports have come from Turquoise district, the latest being the starting up of the Defiance mine by an El Paso company.

Several unauthentic rumors of new discoveries have come from the Dragoons the past week.

Notice.

All parties are hereby warned not to give credit to my wife, Mrs. W. W. Fetterman, after this date, as I will not be responsible for any bills contracted by her.

W. W. FETTERMAN.

Tombstone, A. T., Sept. 6, 1889. [1w]

A woman at Reading, Pa., hanged herself because she had a severe toothache. She told a friend the day before she could not bear it any longer.

Five dollars and four cents were dropped in the box of an Allentown street car by a near-sighted rider, who mistook a \$5 gold piece for a penny.

There are altogether about 17,000 Arabs in this country, and not 10 per cent of them have a settled home or any other means of support than peddling.

A Sierra Valley (Cal.) man made an excellent bargain the other day. He bought a sack of sweet potatoes and found in the bottom of it a \$20 gold piece.

If you want to get fresh telegraphic (no grapevine) news, read the EPITAPH.

Fresh oysters at the Can Can every day.

SANTOS AROS

Livery Stable in Connection.

FAIRBANK, — ARIZONA.

Swept by the Tide of Popularity.

To the highest pinnacle of success, Hostetter's Stomach Bitters stands a shining proof of what genuine merit, backed by the living force of proven facts, can attain. The North and South American continents, Europe, Australia, the West Indies, Guatemala and Mexico have all contributed wide patronage and testimony of the most favorable kind—but unsolicited—to swell the reputation of this sterling remedy. Among the maladies for which the most convincing public and professional testimony proves that it is a benign curative, are chills and fever, bilious remittent, dumb ague and ague cake, dyspepsia, liver complaint, nervousness, debility, kidney and bladder complaints. It mitigates the infirmities of age, hastens convalescence, has a tendency to prevent ill consequences from exposure and exhaustion. Persons of sedentary habits and laborious occupations will find it an ever useful tonic.

Stop.

Do you want to be happy, healthy, wealthy and wise? Drop into the Pony Saloon and ask Henry for some of that fine old hand made 80 sh Bourbon Whisky and Will and Hill's Spring of '80. He also has on hand Hermitage Bourbon, J. H. McBrayer Bourbon, Rippy and Guckenheimer Ryes—all pure, straight old goods; together with all kinds of imported Brandies, Wines, Ales and Porters of the most celebrated brands. His California Brandy cannot be surpassed anywhere. All kinds of fancy mixed drinks a specialty; the Carman Key West Cigar cannot be beat, for the money, in any place. St. Louis Anheuser Busch Lager Beer, ice cold, on draught. Call and be convinced.

HENRY CAMPBELL, Proprietor.

Cholera in Michigan.

Dr. F. D. Larke, of Rogers City, Michigan, says the epidemic of last year in Presque Isle County, in which so many persons lost their lives, was choleric dysentery instead of cholera as first reported. He used Chamberlain's Colic, Cholera and Diarrhoea Remedy and says it succeeded, where all other remedies failed. Not a single case was lost in which it was used. This Remedy is the most reliable and most successful medicine known for colic, cholera morbus, dysentery, diarrhea and bloody flux. 25 and 50 cents bottles for sale by H. J. Peto.

TO CATTLE BUYERS.

500 Fat Steers.

Persons wishing to buy fat cattle, can purchase the same from Messrs. Jose Maria and Manuel Elias, at their ranch in San Pedro, Palominas, Sonora, Mexico, who have now on hand 500 fat steers. They will be sold at moderate prices.

For further particulars inquire at the above named ranch. 9-1-11m
